Airborne again takes you on another exciting musical journey with this uplifting composition. Possible is filled with various Caribbean, Island, and Latin Musical Styles and Influences that are Very Hot and So Cool.

The vibrant arrangement fires this hot music, while the technique of the musicians awake the upbeat rhythms and inspiring melodies that smoothly cruise on a cool atmosphere of music and voices

All Caribbean and Island music has been influenced by African rhythms, chants, and instruments. Understanding this reflects the spirit and the culture of the people of the Caribbean.

The definition of possible is something being able to be done or able to be or become; within the power or capacity of someone. Something attainable, achievable, likely, imaginable, believable, potential, probable, credible and conceivable.

It has often been said that it is not math that is the universal language, but music. What better way to experience the culture of the Caribbean islands than swaying to the beat of this unique music.

Latin music is all about feeling the rhythms and allowing them to take over and move your body in dance.

Enjoy this wonderful offering of Joyful Music. Possible was created by the imagination, wisdom, motivation, determination and extraordinary talents of the contemporary jazz group Airborne
